

Pierce County Planning & Public Works

March 19, 2025 ·

Pierce County has terminated the contract with Pivetta Brothers Construction, Inc., for the Parkland/Brookdale Interceptor Phase 4 project on and around Spanaway Loop Road South. The contractor failed to meet the terms of its contract, resulting in unacceptable construction delays and no reasonable path to complete the project.

The contract termination takes effect March 18. The County is moving forward swiftly to secure a new contractor that can complete this project as quickly and safely as possible. The County understands the considerable impacts residents and businesses have already experienced through this area in recent months.

At this time, one lane will remain open in either direction on Spanaway Loop Road South between 116th Street South and Garfield Street South. We expect the road to be closed again in that area when construction begins with a new contractor. We will provide more details and an updated timeline once a new contract is in place.

For more information about the project, please visit www.PierceCountyWa.gov/SpanawayLoopClosure
